Rock Climbing

Tamworth

**Friday 17 November**

Year 12 Graduation Dinner

at secondary campus

6 - 8pm

## WEEK 9

**Friday 8 December**

Boulder Freestyle

Rock Climbing

Tamworth

## WEEK 10

**Tuesday 12 December**

Presentation Day

**Wednesday 13 to Friday 15 December**

Secondary Lake Keepit Excursion

REGIONAL COUNCIL  
**Tamworth**

## **Barraba Sewerage Network Testing**

Council is soon to commence a program for the inspection of the sewerage network in Barraba using a new methodology. This system involves the injection of large volumes of air, along with an inert white vapour, into sections of the sewerage network. This vapour escapes from the sewer where openings or breaks in pipes occur and shows where problems in the sewerage network may exist.

Council has written to all residents connected to the sewerage network in Barraba and provided them with a detailed fact sheet.

The program is planned to commence on 9th November 2017 and will continue for approximately four weeks. The work will include the entire Barraba sewerage network, excluding those properties that are not connected to the sewerage network.

Enquiries can be directed to Jonathon Bell at Tamworth Regional Council on (02) 6767 5555 or 1300 733 625 during office hours (8:30am to 5:00pm Monday to Friday).
